WFNS NEUROANATOMY COMMITTEE

WFNS Neurosurgical Anatomy
11th Live Webinar

29th - 30th June, 2021
12.00pm - 4.00pm GMT
WFNS Neurosurgical Anatomy 11th Webinar
29th - 30th June 2021

Dear colleagues,

On behalf the World Federation of Neurological Surgeons “Neuroanatomy Committee” we are pleased to launch its “11th online dynamic educational course” to promote sound clinical judgement, enhance neurosurgical skills of young neurosurgeons and trainees around the globe, infuse their challenges and respond to their inquiries.

The course will encompass special presentations by distinguished faculties, case discussion and short video sessions reflecting the importance of anatomical knowledge associated with the neurosurgical intervention.

Sincerely,
Imad N. Kanaan & Vladimír Beneš
Chairmen of WFNS Neuroanatomy

TOPICS
Inspiration & Innovation of
‘Madjid Samii School of Neurosurgery’

COURSE DIRECTORS
Imad N. Kanaan
Professor & Chairman Emeritus
KFSH & Research Center
Alfaisal University, KSA

Vladimír Beneš
Professor & Chairman Emeritus
First Medical School
Charles University, Czech Republic
WFNS Neurosurgical Anatomy 11th Webinar

**Presentations**

- ’Basics cerebellopontine angle surgery focusing on anatomy’. **Eiji Kohmura**
- Retromastoid approach for microsurgery of CPA lesions. **Francesco Tomasello**
- ’The Seven Schwannomas’. **Marcos Tatagiba**
- ’Neuroanatomy for Neurobionic Hearing Restoration - an Overview’. **Amir Samii**
- Endoscope-assisted resection of vestibular schwannomas, **Henry Schroeder**
- Carotid Endarterectomy: CEA vs Stent. **Vladimír Beneš**
- CNS Infection. **Abdulsalam Al Khamlichi**
- Surgery in and around Meckel’s Cave Tumors: Toward a safe removal. **Miguel A Arraez**
- Surgical Anatomy of of the jugular foramen. **Ricardo Ramina**
- Microvascular Decompression in Trigeminal Neuralgia, Results and Tips. **Enrique Osorio**
- Pineal tumors surgery. Tips and tricks. **Giovanni Broggi**

**Moderators**: Vladimír Beneš, Iype Cherian & Víctor Hugo Pérez

**TUESDAY 29th June 2021**
WFNS Neurosurgical Anatomy 11th Webinar

WEDNESDAY 30th June 2021

Moderators: Ramesh Nair, Matías Baldoncini & Imad N Kanaan

Complications in Neurosurgery: Ethics, Morals & legalities. Keki Turel

Top 10 challenges in Peripheral Nerve Surgery in the 21st Century. Lukas Rasulic

Childhood Hydrocephalus, overcoming challenges of this ruthless malady. Mahmood Qureshi

The importance of the arachnoid membrane in skull base surgery. Mario Ammirati

Transformation from signature to tailored skull base approach. Imad N Kanaan

Microsurgery of Craniopharyngiomas, special experience. Armando Basso

Anterior Skull base tumors. Moving toward new approaches. Jose Landeiro

Skull base meningiomas. ‘Lessons learned from Professor Samii’. Ioan Stefan Florian

Para-sagital meningiomas, Simpson rate of resection and long term recurrence rate. Apio Antunes

‘Surgery of brainstem cavernomas: Strategy born from a nexus of anatomy, pathology and ergonomics – A Samii legacy’. Jacques Morcos

Management Strategies for Chordoma: Role of Endoscopic Techniques - Have them made a difference in patient outcomes?. Fred Gentili

The duty & Joy of Education in my life. Madjid Samii

Under the auspices of the WFNS
