# PRE-MEETING COURSES

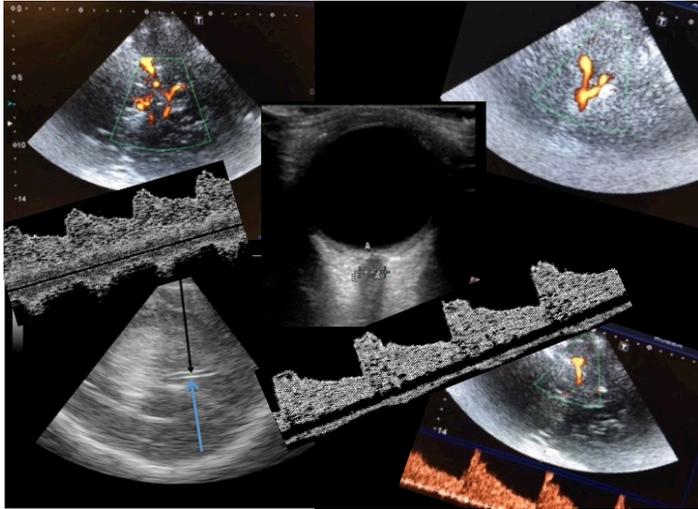

Sonography in Neuro-  
Intensive Care

Global Neuro

Neurotrauma Course

The aim of the **Sonography in Neuro-Intensive Care (SoNIC)** course is to educate and train practitioners in the safe and competent use of diagnostic ultrasound imaging in the visualisation and interpretation of different cerebral conditions.

The **SoNIC course** is aimed at doctors in the specialties of Anaesthetics, Emergency Medicine, Infectious Diseases, Neurology and Neurosurgery.

Specifically, the programme will train practitioners in the safe and accurate acquisition of ultrasound images in the neuro examination and neuro monitoring of patients in the operating room as well as in general, cardiothoracic and neurocritical care settings.

The course is intended for anaesthetists and intensivists with a basic knowledge of ultrasound physics and a practical experience of Ultrasound.

After the course, it is expected that participants will be able to perform high quality brain ultrasound scans in a safe and effective manner and to understand how brain ultrasound examination can be used to optimise clinical management of patients with a variety of pathological conditions.

# Climate of Naples

In the summer temperatures in the bay of Naples are between 25° C (77° F) and 35° C (88° F).

The autumns are sometimes damp with some rainy days. In the winter there are less rainy days and the temperatures are between 4° C (40° F) and 11° C (52° F), but you should not be surprised if you will get a sunny day with 16° C (61° F) in the middle of January.

Naples is a city on the sea, a place full of light yet with dark, hidden foundations. It has a great cultural and artistic identity which is stamped on the brow of its many museums, castles, churches, squares, narrow streets and archaeological remains.

# The bay of Naples accounts of beautiful islands, wide archeological sites, volcanic area and thermal locations....

Capri island

The hotels provides solutions, from characteristic facilities to sophisticated rooms and private swimming pools with wellness centers

Ischia island

A volcanic island with thermal spa with therapeutic hot-spring waters

Procida island

The island has served as the movie set, such as The "Postman" by Massimo Troisi, and "The Talented Mr. Ripley"

POMPEII one of the most famous archeological sites in the world and ERCULANEUM in the list of world heritage of UNESCO

Many volcanic sites to visit such as climbing on Vesuvius, enjoy the sulfurous therapeutical thermal site, walking through the volcanic phenomena such as fumaroles, mofettes and mud small volcanoes

...less than two hours from city center of Naples by car, or by hydrophoil, or by train
