42nd Egyptian Congress of NEUROSURGERY

27-29 March 2019 - Grand Nile Tower-Cairo

Welcome Note..

Dear Friends & Colleagues,

It is great pleasure to welcome you to the 42nd Egyptian Congress of Neurosurgery, organized by the Egyptian Society of Neurological Surgeons (ESNS), the most significant Neurosurgical event in Africa and the Middle East.

Egyptian Neurosurgeons are honored to be affiliated to this ancient society which had been founded in 1967, and joined the World Federation of Neurosurgical Societies (WFNS) in 1969. Since that time, the ESNS is playing an active role in the progress of Neurosurgical practice on local, regional, continental and international levels.

We are honored to have this meeting done in collaboration with the Continental Association of African Neurosurgical Societies (CAANS). The scientific program is outstanding, with high standard courses, distinguished speakers from all over the world, highly educational and fascinating presentations.

Between the dream and reality, I strongly believe that these sessions and courses will guide our young neurosurgeons, expanding their intellects, strengthening their technical skills, introducing them to a new era with a brighter future.

The meeting takes place at the Grand Nile Tower Hotel in Cairo, which is located in the spark of the city, with an amazing panoramic view over the beautiful turquoise Nile River, Close to the Egyptian Museum, Tahrir Square and Down Town.

My best wishes to all our guests to have a pleasant stay in this beautiful historical city, and to all of you to have a memorable gathering and a successful great event.
