70th Annual Meeting

German Society of Neurosurgery (DGNC)

2019
12-15 May
WÜRZBURG

CALL FOR ABSTRACTS

Joint Meeting with the Scandinavian
Neurosurgical Society (SNS)

WELCOME NOTE

Dear Ladies and Gentlemen,
Dear Colleagues,

With great pleasure, we cordially invite you to attend the 70th Annual Meeting of the German Society of Neurosurgery, which will be held in Würzburg, Germany, from 12–15 May. We gratefully thank the German Society of Neurosurgery for the opportunity to organise this anniversary meeting here in Würzburg – 85 years after founding of the first neurosurgical department by Wilhelm Tönnis. With respect to the historical relation between Tönnis and his Swedish mentor, Herbert Olivecrona, we are particularly pleased that the first Joint Meeting with the Scandinavian Neurosurgical Society (SNS) will take place together with the Annual Meeting in Würzburg.

As in the past, we start our meeting on Sunday with the Educational Day, which will be organised together with our Neurosurgical Academy. In the evening, the famous Würzburg Residence, which has been included in the UNESCO's World Cultural Heritage List since 1981, is the venue for the festive opening ceremony. The scientific sessions will be held in the Congress Center Würzburg (CCW), which has been entirely renovated since the last Annual Meeting here in 2008. Together with all participants and guests, we want to discuss current questions of patient care, scientific research, neurosurgical education as well as future prospects in these areas. This is the background for our main topics "Health Care Research" and "Neurosurgery 2030", which will be related to different neurosurgical fields.

Therefore, we are already looking forward to your active involvement by handing in abstracts. With reference to the "Neurosurgery 2030", project ideas or studies still in progress are requested for submission as well.

We are looking forward to seeing and welcoming you to Würzburg in 2019!

Prof. Dr. med. Ralf-Ingo Ernestus
Congress President

ABSTRACTS/REGISTRATION

MAIN TOPICS

Health Care Research
Neurosurgery 2030

With focus on

- Neurosurgical Oncology
- Neurovascular Diseases
- Neurotraumatology
- Neuromodulation
- Spinal Neurosurgery
- Paediatric Neurosurgery

ABSTRACT SUBMISSION

The abstract submission is possible online at www.dgnc-kongress.de until 30 November 2018.

Please submit abstracts in English with the title both in German and English. A written notification about the acceptance as a lecture or poster will be sent by February 2019.

All accepted abstracts will be published at the online portal German Medical Science (GMS).

REGISTRATION

The registration for the conference will open in December 2018 at

www.dgnc-kongress.de
