

Ukrainian Association of Neurosurgeons Annual Scientific Conference “Interactive Neurosurgery in Conditions of War” September 12-14, Ternopil, Ukraine

Dear colleagues!

On behalf of the Organization committee, we invite you to take part in the **Annual Scientific Conference of the Ukrainian Association of Neurosurgeons with international participation**, which will take place on **September 12-14, 2024 in the city of Ternopil!**

Ternopil, known for its rich history and vibrant academic atmosphere, is an ideal backdrop for the exchange of ideas and experiences. This is an exciting opportunity for you to enrich yourself and exchange knowledge and achievements in the field of neurosurgery. The conference will not only contribute to the professional development of each of you, but will also open up new opportunities for self-improvement, fruitful cooperation and scientific research.

The field of neurosurgery is constantly evolving, and our collective efforts in research, education, and clinical practice are critical to improving patient outcomes and expanding the frontiers of medical science.

The Ukrainian school of neurosurgery is famous for its high qualification and innovative approaches, and our conference will contribute not only to maintaining this level, but also to advance it further. We encourage each of you to actively participate in the discussions, attend the scheduled meaningful sessions, and take advantage of opportunities to network with fellow neurosurgeons and experts.

We wish you important discoveries and inspiration for new achievements. Let our cooperation contribute to the health and happiness of our patients.

Best wishes for successful participation in this conference!
We are waiting for you in the wonderful city of Ternopil!

Petro Hudak
