

Welcome to CLAN Chile 2024

Every two years, the **Latin American Federation of Neurosurgery Societies (FLANC)** organizes the Latin American Congress of Neurosurgery (CLAN), the largest meeting of the specialty in Latin America and Latin-speaking European countries. In 2020, the event was held in the city of Guayaquil, Ecuador, which, due to the pandemic, was postponed to March 2021. **CLAN 2022** was held in the city of Miami, United States. And by 2024, Chile will open its doors and host this important event, with the official organization of the **XLI Latin American Congress of Neurosurgery CLAN 2024**. The **Society of Neurosurgery of Chile** is proud to take on this project and is pleased to cordially invite you to Santiago de Chile in the month of October 2024.

Chile is a long country, more than 4000 kilometers long, running from north to south, with different climates and different landscapes. Our proposal for CLAN 2024 revolves around three axes:

Scientific program: we are organizing a congress of the best scientific, academic and sectorial level within Neurosurgery.

Social program: we have the experience and infrastructure to receive our colleagues from Chile and abroad in the best way.

Cultural and tourist program: Chile is a country with a first-class gastronomic and cultural offer, which adds to a unique nature in the world.

We are waiting for you with open arms! You are warmly Welcome to CLAN Chile 2024!

CLAN XLI
**LATIN AMERICAN
CONGRESS OF
NEUROSUGERY**
October 20 - 25, 2024
Sheraton Hotel
Santiago, Chile

Integration and evolution in Neurosurgery

We are waiting for you in Chile!
