

WFNS PERIPHERAL NERVE COMMITTEE

The most relevant news for the WFNS Peripheral Nerve Surgery Committee is the presence of 3 new members:

- Dr Thomas Kretschmer from Austria
- Dr Damiano Barone from the USA
- Dr Adilson De Olivera from Angola

Their presence contributes to enrich and empower our group as enlarging our network empowers us in the promotion of our subspecialty.

The most important event over the last two months was the participation of many of our members in EANS 2024, where we contributed to the preconference course on peripheral nerve surgery, plenary and parallel sessions. Dr Thomas Kretschmer, Dr Lukas Rasulic and Dr Debora Garozzo were also invited speakers in the 3rd World Congress of Young Neurosurgeons, that also took place in Sofia in the same dates than the EANS conference.

In addition to the international event in Sofia, we also had another important in person event; on 17th October 2024, during the Interim congress of the Iranian Neurosurgical Society in Yaz, Dr Mohammed reza Emam hadi organized a course on peripheral nerve surgery.

The online education events have continued as well. We collaborated with the ASPN on a webinar on neuropathic pain on 19th October and on 1st November, we continued our collaboration with the WFNS Neuroanatomy Committee with a webinar on the anatomy of the lumbosacral plexus and its surgical approach.

WFNS SKULL BASE SURGERY COMMITTEE

Congratulations to the WFNS Skull Base Committee for their incredible work and achievements! Their dedication to improving skull base surgery around the world has truly made a difference. By creating training programs, organizing workshops, and setting high standards, the Committee have helped surgeons provide better care for their patients. Thank you for the hard work and commitment.

WFNS ENDOSCOPY COMMITTEE

A big congratulations to the WFNS Endoscopy Committee for their remarkable efforts in the last six months! By hosting an impressive series of workshops and webinars, they have provided neurosurgeons around the world with invaluable learning opportunities. Their commitment to sharing skills, advancing endoscopic techniques, and fostering a global network of expertise is truly inspiring.

 May 11, 2024

The First Monastir International Spine Conference and the 7th Middle East Spine Congress took place from October 24-26, 2024, in Monastir, Tunisia, marking a significant gathering in the field of spine surgery. This prestigious event, organized by Dr. Mehdi Darmoul, brought together a host of renowned experts, creating a vibrant platform for knowledge-sharing and collaboration. Esteemed faculty members included Dr. Edward Benzel, Dr. Atul Goel, Dr. Douglas Orr, Dr. Mehmet Zileli, Dr. Richard Assakar, and Dr. Salman Sharif, alongside many other distinguished leaders like Dr. Oscar Alves, Dr. Onur Yaman, Dr. Serdar Kahraman, and Dr. Nikolay Peev.

The conference served as an educational feast, presenting cutting-edge techniques, advancements in spinal surgery, and fostering discussions to advance the field. With an impressive turnout and enthusiastic participation, this event successfully strengthened connections within the spine surgery community and highlighted Tunisia as a hub for international neurosurgical collaboration.

WFNS EDUCATIONAL COURSE, ISTANBUL, TURKEY

WFNS EDUCATIONAL COURSE

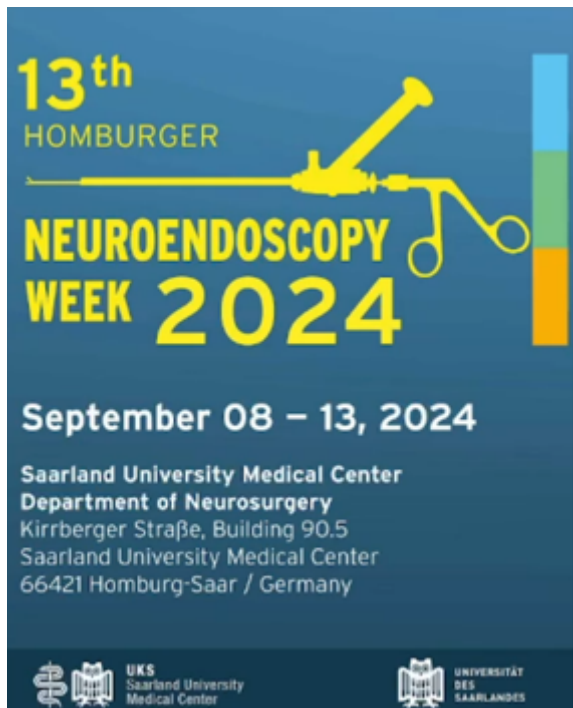

September 27-29 2024
NPİSTANBUL Brain Hospital,
Istanbul / Türkiye

The WFNS Educational Course in Istanbul, Turkey, was a remarkable event organized by Prof. Onur Yaman from NPİSTANBUL Brain Hospital, Prof. Mehmet Zileli, Chairman of the WFNS Education and Training Committee, and Prof. Abuzar Gungor, Chairman of the WFNS Young Neurosurgeons Forum Committee. This global gathering brought together 57 speakers from various countries, creating an enriching environment for knowledge exchange and skill-building in neurosurgery. The course provided an invaluable learning experience, fostering collaboration and professional growth among neurosurgeons and highlighting Istanbul as a hub for neurosurgical education and advancement.

WFNS RESEARCH COMMITTEE

The Neuroendoscopy Week in Homburg, held from September 8-13, 2024, was a successful and well-attended event organized by Prof. Joachim Oertel, Chairman of the WFNS Research Committee. This hands-on course focused on spine, skull base, and endoscopy techniques, providing participants with practical experience and skill development in these specialized areas. Many esteemed speakers from around the world contributed their expertise, making it a rich learning opportunity for attendees. The course highlighted the importance of hands-on training in neuroendoscopy, further advancing the field through global collaboration and education.

WFNS ANATOMY COMMITTEE

WFNS Anatomy Committee is one of the most active and dynamic committees! Their dedication to organizing a series of webinars for young neurosurgeons and trainees has provided invaluable learning opportunities. By focusing on anatomy education, they are helping to build a strong foundation for the next generation of neurosurgeons.

The University of Buenos Aires School of Medicine
President of Argentine Society of Neurosurgery

"Anatomy of the Brachial Plexus and Its Surgical Approach"

7th June 2024
08:00 AM Argentina -3

ZOOM MEETING ID
947 1278 3268

WFNS NEUROANATOMY & PERIPHERAL NERVE COMMITTEE

WFNS RHOTON ANATOMY DAY PERIPHERAL NERVE

Dr. Christian Reizen (Head of Neuro. Spinal and Motor Surgery, Charité - Universitätsmedizin Berlin, Germany)
Dr. Lukas Kasalik (Head of Department of Neurosurgery, Department of Neurosurgery and Pain Management, Surgery Clinic for Neurosurgery, University Clinical Center, Serbia)
Dr. Adilson De Oliveira (Assistant Professor, Neurology and Psychiatry, WFNS Belgium)

"Anatomy of the Median Nerve and Its Surgical Approach"

LIVE: 5th July 2024
01:00 PM (Belgrade GMT +2)
04:00 PM (PAK +5)

ZOOM MEETING ID
947 1278 3268

WFNS NEUROANATOMY & PERIPHERAL NERVE COMMITTEE

WFNS RHOTON ANATOMY DAY PERIPHERAL NERVE

Dr. TJ Wynn (Clinical Associate Professor and Co-Chairman, Department of Neurosurgery, Harborview Medical Center, Boston, MA, USA)
Dr. Thomas Kruschner (Department of Neurosurgery and Neurorehabilitation, Christian Albrecht University, Kiel, Germany)

"Anatomy of the Radial Nerve and Its surgical approach"

LIVE: 6th September 2024
11:00 AM (GMT)
04:00 PM (PAK +5)

ZOOM MEETING ID
969 1953 3834

WFNS NEUROANATOMY & PERIPHERAL NERVE COMMITTEE

WFNS RHOTON ANATOMY DAY PERIPHERAL NERVE

SPEAKER

Dr. Lukas Reszala
Professor, Faculty of Medicine, University of Bergamo
Head of the Department, Peripheral Nerve Surgery,
Peripheral Neurosurgery,
University Hospital Center of Berino

MODERATOR

Dr. Carlos A. Rodriguez Aceves
Neurosurgeon, Hospital Maria Sagrada
Professor of Plastic Child, Case Children,
ABR Neurological Center,
Mexico

**"Anatomy of the Axillary Nerve and
Its surgical approach"**

LIVE: Friday, 4th October 2024
11:00 AM (GMT)
04:00 PM (PAK +5)

ZOOM MEETING ID
969 1953 3834

WFNS NEUROANATOMY & PERIPHERAL NERVE COMMITTEE

WFNS RHOTON ANATOMY DAY PERIPHERAL NERVE

SPEAKER

Dr. Debora Garzon
Chairman, WFNS Peripheral Nerve Committee
Associate Neurosurgeon
Madrilich Peripheric Hospital
Spain, 1988

MODERATOR

Dr. Marianna Socolovscky
Co-Chairman, WFNS Peripheral Nerve Committee
Professor and Head of Neurosurgery,
The University of Buenos Aires School of Medicine,
President of Argentine Society of Neurosurgery

**"Anatomy of the Lumbosacral Plexus
and Its Surgical Approach"**

LIVE: Friday, 1st November 2024
11:00 AM (GMT)
04:00 PM (PAK +5)

ZOOM MEETING ID
969 1953 3834

WFNS CEREBROVASCULAR COMMITTEE

WFNS Cerebrovascular Committee has worked hard and with dedication in bringing together world-renowned faculty to train young neurosurgeons. Their efforts to provide high-quality education align perfectly with the WFNS's vision and goals, and they have made a meaningful impact on the future of cerebrovascular neurosurgery.

WFNS Cerebrovascular Surgery Committee

Monthly Webinar Series: "Global Cerebrovascular Surgery"
Saturday November 23rd at 7 AM EST (11 AM GMT)

Moderators:

 H. Ali Aziz-Sultan (USA)
 Giuseppe Lanzino (USA)

Panelists:

 Hafizuba Bouterflehah (Pakistan)
 Muhammad Iqbal (Malaysia)
 Kevin Wada (Japan)

"Implementing endovascular neurosurgery in Pakistan: challenges and opportunities"
"From challenges to solutions: addressing resource gaps in neurosurgery across borders"
"Building a modern neurovascular and stroke program in the Caribbean: challenges, pitfalls and solutions"

MEETING ID: 937 5926 7999

WFNS Cerebrovascular Surgery Committee

Monthly Webinar Series: "Biposterior Cervicous Malformations"
Saturday October 12th at 7 AM EST (11 AM GMT)

Moderators:

 Giuseppe Lanzino (USA)
 Hui Fujimura (Japan)

Panelists:

 Kelly Fleming (USA)
 Ulrich Sure (Germany)

"Natural history and recent developments"
"Surgical indications and techniques"

MEETING ID: 937 5926 7999

WFNS Cerebrovascular Surgery Committee

Monthly Webinar Series: "Anterior Communicating Artery Aneurysms"
Saturday, September 7th at 7 AM EST (11 AM GMT)

Moderators:

 Giuseppe Lanzino (USA)
 Ekkehard Geiser (USA)

Panelists:

 Vincent Quilis-Quezada (Spain)
 Michel Bojanowski (Canada)
 Martin Simek (Czech Republic)

"Surgical and angiographic anatomy of Acom aneurysms"
"How I do it"
"How I do it"

WFNS Cerebrovascular Surgery Committee

Monthly Webinar Series: "Basic Neurosurgical Skills and Future Venues"
Saturday August 10th at 7 AM EST (11 AM GMT)

Moderators:

 Giuseppe Lanzino (USA)
 Vanessa Milanesi (Brazil)

Panelists:

 Richard Byrne (USA)
 Byron Salazar (Ecuador)
 Carlo Bortolotti (Italy)

"AI applications in neurosurgery"
"Ergonomics in neurosurgery"
"Simulation in vascular neurosurgery"

MEETING ID: 937 5926 7999

WFNS Cerebrovascular Surgery Committee

Monthly Webinar Series: "Surgical Treatment of Middle Cerebral Artery Aneurysms"
Saturday July 20th at 7 AM EST (11 AM GMT)

Moderators:

 Giuseppe Lanzino (USA)
 Michel Bojanowski (Canada)
Case discussion

Panelists:

 Vincent Quilis-Quezada (Spain)
 Carlos David (USA)
 Wei Zhu (China)

"Surgical and angiographic anatomy of MCA aneurysms"
"Surgical principles for MCA aneurysms"
"Surgical strategies for complex MCA aneurysms"

MEETING ID: 937 5926 7999
