

Dear Colleagues –

In addition to the usual reports of recent conferences/courses and announcements of upcoming conferences/courses, two new reports are introduced in this Newsletter:

1. Announcements of recurring webinars. Although it is not feasible to announce every relevant webinar in the Newsletter (at least dozens every two months), a webinar series that occurs every week or every month can be listed (with upcoming topics if possible).
2. Reports of observerships. This can be a forum for our in-training colleagues to share their experiences at institutions away from their primary training institution. In-training colleagues may find similar experiences helpful to broaden their training early in their career.

Prior to announcements regarding major upcoming conferences/course during the remainder of 2024, the following are presented:

- Foundation for International Education in Neurological Surgery (FIENS) Clack Family Fellows 2024
- Jeff Ntalaja Young African Neurosurgeons Scholarship
- Medical Student Observership Report
- Society for Neuro-oncology Sub-Saharan Africa (SNOSSA) Monthly Webinar
- Global Neurosurgery Africa Weill Cornell Monthly Webinar
- WFNS Committee Reports of Recent Past and Upcoming Activities

Announcements regarding major upcoming conferences:

- Society of British Neurological Surgeons (SBNS) Conference, Birmingham UK, 24-27 Sep
- 4th Ivorienne Neurosurgery Congress, Yamoussoukro, Ivory Coast, 25-27 Sep
- Dominican Society of Neurology and Neurosurgery, Punta Cana, Dominican Republic, 26-29 Sep
