(CCI): 038404107000330732-01

**2025** will mark a historic milestone for Peruvian neurosurgery with the celebration of the **Peruvian Neurosurgical HAT-TRICK** — a unique convergence of three major events that will elevate Peru’s standing in the regional and global neurosurgical community:

1. **70th Congress of the Peruvian Society of Neurosurgery** – Commemorating seven decades of academic excellence and professional development in Peruvian neurosurgery.
2. **10th Congress of the Latin American Federation of Neurosurgical Societies (FLANC)** – Peru proudly hosts this prestigious continental gathering, bringing together leading neurosurgeons from across Latin America.
3. **Publication of the Peruvian Neurosurgery Commemorative Book** – A landmark volume documenting the history, evolution, and contributions of Peruvian neurosurgery to the world.

This “hat-trick” represents not only a celebration of past achievements but also a bold step forward in Peru’s commitment to neurosurgical advancement.
