

PLOT-ICH

PLanetary **OuT**comes after
IntraCranial **H**aemorrhage
Study

**A prospective, international observational study
assessing the global variation in patient
characteristics, management
and short-term outcomes of spontaneous
intracranial haemorrhage**

Join today!

**Any hospital worldwide can sign up
You can register until January 2026**

Go to plotich.org to find out more

PLOT-ICH

PLanetary **OuT**comes after
IntraCranial **Haemorrhage**
Study

How do I join?

Go to plotich.org/registration/ to get started!

Form a **local study team**

Complete the **registration form**

Obtain **local study approval** and
sign the **data transfer agreement**

Your **ORION** **logins** will be activated!

On ORION:

- select your **30-day data collection window**
- complete the **site questionnaire**
- complete **data collection & validation**

PLOT-ICH

PLanetary **OuT**comes after
IntraCranial **Haemorrhage**
Study

Why join?

- 1. Be part of a global study that will generate new information on how patients with intracranial haemorrhage are managed across the world.**
- 2. Become part of an international collaborative research network.**
- 3. Learn new research skills.**
- 4. Become an author in all future PLOT-ICH study publications!**
