

Welcome to CLAN Chile 2024

Every two years, the **Latin American Federation of Neurosurgery Societies (FLANC)** organizes the Latin American Congress of Neurosurgery (CLAN), the largest meeting of the specialty in Latin America and Latin-speaking European countries. In 2020, the event was held in the city of Guayaquil, Ecuador, which, due to the pandemic, was postponed to March 2021. **CLAN 2022** was held in the city of Miami, United States. And by 2024, Chile will open its doors and host this important event, with the official organization of the **XLI Latin American Congress of Neurosurgery CLAN 2024**. The **Society of Neurosurgery of Chile** is proud to take on this project and is pleased to cordially invite you to Santiago de Chile in the month of October 2024.

Chile is a long country, more than 4000 kilometers long, running from north to south, with different climates and different landscapes. Our proposal for CLAN 2024 revolves around three axes:
